*business hours. 100/40 Speed Boost is not available on nbn Fixed Wireless and typical speeds in these areas will be slower than other access types. Minimum cost includes self installation and a service activation fee - \$110.

Information about the service

The Service:

Our **NBN Broadband** service offers post-paid asymmetrical internet interface speeds* up to 100/40Mbps** via the National Broadband Network where available and an included data allowance. You can choose to have your speed reduced (shaped) to 256kbps once you used up all your included allowance or you can continue using the service at the same speed and pay excess data charges. There are no peak or off peak restrictions on your use.

Mandatory components:

If your existing connection is nonstandard, NBN Co will discuss any additional charges with you and these charges will appear on your first bill. You will require a router or firewall at your premises for this service to work. We can provide our Home Network Gateway for self-installation at no cost. Additional charges apply for Home Network Gateway installation and replacement. We will deliver your service to the Network Boundary Point at your premises, which is defined as the physical port or 'UNI' on the NBN Network Termination or port on the Home Network

Gateway if selected. The cabling that is required in your premises beyond the Network Boundary Point is your cost

and responsibility, as is the provision of a suitable 240V AC power outlet. Please contact us for further information. All bills are delivered by email and Direct Debit from either a bank account or credit card is required.

Minimum term:

The service is available with a minimum term of 24 months

Important conditions:

Once you take up a phone and broadband service on the NBN you can't move back to services on the existing copper network. You may upgrade your bandwidth or your plan allowance once per month. You cannot downgrade your bandwidth or plan while within contract term. This service may not be available at your location. Please call us to find out if you can be connected to this service at your location. Requests to increase the connection speed will result in a restart of the 24 month term. You may only increase your connection speed once per month. Requests to decrease the connection speed will result in a cancellation of the existing service with an Early Termination Charge.

You must obtain the consent of the property owner to have the NBN installation performed. Standard Installation is included at no charge if the service is to be connected in an existing developed area and we can arrange

NBN Broadband

the required installation appointments for you. If you need a first connection in a newly developed area, NBN Co will levy a charge of \$375.00 (inc GST) and this will appear on your first bill.

Interface speeds refer to the speed of the technology installed at your premises. They are not necessarily equivalent to the download/upload speeds you will achieve in practice. Actual download and upload speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded. In the case of NBN connections delivered using FTTN (Fibre to the Node) technology, the distance you are away from the node will affect maximum available speeds.

**In Fixed Wireless coverage areas, 25Mbps/5Mbps and 60Mbps/10Mbps options are available.

Information about pricing

Minimum monthly charge:

Please refer to table on previous page for pricing information.

Maximum monthly charge:

The maximum monthly charge depends on whether you have chosen to consume additional data via our excess charges.

Speed Boost Packages: **

25/5 + \$15/mth.

50/20 + \$30/mth.

100/40 + \$45/mth. (only available for select NBN services)

Your actual speeds may differ to the maximum line speeds due to a range of factors. Internal wiring, network capacity, technology type and distance to node (FTTN)

NBN Home Phone

Call Rates:

Local calls

Flagfall Charge - \$0.20 Timed Charge - \$0.00

Mobile Calls

Flagfall Charge - \$0.00 Timed Charge - \$0.37

National Calls

Flagfall Charge - \$0.00 Timed Charge - \$0.25

1300/13

Flagfall Charge - \$0.40 Timed Charge - \$0.00

Billing:

We will bill you in advance for the minimum monthly charge and features and in arrears for data. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.

Early termination charges:

If you cancel your service prior to the end of your contract term you will incur an Early Termination Fee of \$0 (ex GST) plus any outstanding monthly charges or calls made to the expiry date of contract.

Unit Pricing Information:

Please refer to table above for unit pricing information.
