

## CRITICAL INFORMATION SUMMARY

# SONIC WIRELESS RESIDENTIAL

### Information About This Service

Sonic Wireless is a next generation wireless network servicing the areas of Bunbury, Geraldton and Perth, Western Australia. Fixed wireless offers high speed internet access. It does not require a phone line, making it ideal for homes that struggle to receive an internet connection through traditional means. The Maximum speeds achievable will depend upon your distance to our transmission towers. Availability depends on the line of sight between your premises and the Sonic Wireless Internet transmission towers. After you signup, we will complete an electronic site survey to determine your eligibility and you will be advised whether you can be connected. This is done at no charge to you. You will require an antenna to be installed on your roof in order to access this service.

### Mandatory Components

We will deliver your Sonic Wireless connection via an antenna mounted to your roof plus the required external cabling to support the service. The cabling that is required in your premises beyond the Network Boundary Point is your cost and responsibility, as is the provision of a suitable 240V AC power outlet. You will also require an appropriate Router which can either be supplied by The Telco Spot or purchased via a third party. Please contact us for further information. All bills are delivered by email and Direct Debit from either a bank account or credit card is required.

### Minimum Term

Our Sonic Wireless plans are available on 12 month and 24-month terms. Please refer to your solution proposal for further information or contact us to discuss your plan options. 12-month plans incur an initial \$300 inc GST

## CRITICAL INFORMATION SUMMARY

### Billing

The figures in the table above are for a full billing cycle, however your first bill may also include pro-rata charges for part of a month. Our billing cycle is from the 28<sup>th</sup> to the 27<sup>th</sup> of the following month. Bills are issued on approximately the 4<sup>th</sup> of the month, for a month in advance. In some cases your bill may also include additional charges such as purchased hardware or professional setup fees if requested. If in the event the direct debit payment is rejected/bounces, a \$15.00 dishonour fee applies.

### Speeds

Actual speeds will vary and are affected by network infrastructure, internet connectivity, wireless interference, limitations of connected devices, cabling, bandwidth of other services (e.g. p2p games, website, download sources), VPN's, Streaming services and other users on the network. Speeds may be slower when devices are connected by Wi-Fi.
